

ADAM GEGGIE-BOWKER

245 Meadowbrook Rd. Victoria, BC • (778) 677-2208 • Adamgeggiebowker@gmail.com

Victoria-based technical professional with a strong engineering foundation and extensive experience in **AutoCAD** and **3D modeling**. Proven track detail-oriented shop drawings, on-site measurement, and collaborative technical design for high-end projects.

EDUCATION

UNIVERSITY OF VICTORIA

Victoria, BC

Electrical Engineering (Undergraduate Studies)

~Fall 2020 – Summer 2025~

- Completed beyond 2nd year, including extensive technical coursework equivalent to standard electrical technologist certification.
- Relevant Coursework: *Calculus I-IV, Linear Algebra, Real Analysis, Electromagnetism, Digital Design, Embedded Systems, Discrete/Continuous Signal Analysis, Physics I-II, etc.*
- **Awards:** Ed Kubek Scholarship, Tillman Briggs Award (Sports Excellence)

TECHNICAL SKILLS

CAD & Mechanical: *AutoCAD, Rhino, Onshape, DFM, GD&T, Parametric Modeling, BOM Management, Documentation.*
Electronics (ECAD): *EasyEDA, KiCad, Raspberry Pi, AurduinoPCB Design (2- & 4-layer)*
Programming: *Java, C++, Python, HTML/CSS, JavaScript, Git*

RELEVANT EXPERIENCE

GREGORY C. MARSHALL NAVAL ARCHITECT LTD

Victoria, BC

Systems Technologist (Co-op)

~Summer 2023 – Winter 2024~

- Produced technical designs of mechanical and electrical luxury yacht systems under proofing/redline workflows.
- Modeled precise 3D components from 2D drawings using Rhino and reworked existing system designs in AutoCAD to meet new constraints.
- Assisted senior engineers in designing systems contributing to shipyard construction documentation.

REMINDR (BUSINESS STARTUP)

Victoria, BC

Co-founder & CAD/Electronics Lead

~Spring 2025 – Winter 2025~

- Designing and prototyping smart consumer products, integrating electronics, CAD modeling, and IoT features.
- Designed custom PCBs in EasyEDA and KiCad. Developed 3D-printed and injection-molded prototypes using Rhino and Onshape.
- Researched and sourced components, managed bills of materials, and iterated mechanical and electrical designs.

WESTERN GRATER

Victoria, BC

Shoring Work / 'Swamper'

~Summer 2024 – Fall 2024~

- Supported operation and maintenance of heavy-duty CFA drills and grout pumps on industrial construction sites.
- Collaborated with geotechnical engineers to maintain safety and structural integrity standards via liftoff testing and shoring-system verification.
- Ensured compliance with geotechnical specifications in a high-stakes industrial environment.

LEADERSHIP & ACTIVITIES

HIGH PERFORMANCE RUGBY CAPTAIN

Victoria, BC

- Led team in fast-paced competitive environments, ensuring clear communication and synchronization.
- Demonstrated discipline, diligence, and stamina while fostering a collaborative team culture.

Other Interests: Health and Fitness, Music, Video Games, Skiing.
